

HIGH SECURITY LOCKS

For Buildings & Vehicles

What makes Tufloc® high-security locks different?

- Our research and development addresses what's really important to customers concerned about ultra-safe and secure solutions.
- Tufloc's unique design eliminates the weak points of the traditional padlock, the shackle and hasp.
- This special design is the reason why businesses, industry, U.S. Military and government repeatedly buy Tufloc when they want high-security, cost-effective locks.
- In addition to providing superb protection, the Tufloc high-security locks mount to fit inward, outward, double-swinging, sliding and roll-up doors. Tufloc high-security locks can even accommodate misaligned doors.

Criminal Resistant Design

- Feature Medeco® high-security cylinders
- Five-pin tumbler with pick resistant core
- Spin-free carbide rod in bolt resists sawing
- Special pins in cylinder face resist drill and saw attacks
- Angle-cut key deters duplication
- Recessed carriage bolt holes deter tampering

Easy to Operate

- A simple twist of the key releases the central bolt and unlocks the Tufloc High Security Lock
- Cannot accidentally lock
- Keyed cylinders can be replaced
- Key can be removed in the locked or unlocked position
- Different keying options available: Keyed Alike, Keyed Differently, Master Keyed
